

**NOW APPROVED
FOR
BORIC/SULFURIC
ANODIZE!**

EMBEE PROCESSING

Embee Processing has recently added Boric Sulfuric Anodize to expand our current capabilities and remain at the forefront of environmentally friendly alternatives to traditional coatings. Boric Sulfuric Anodize offers a chrome free replacement for chromic anodize and has demonstrated excellent corrosion resistance and superior adhesion properties for paint applications.

We are Boeing (BAC5632) and NADCAP approved and our goal is to be the One-Stop-Shop for all of your metal finishing needs.

Please contact our Sales Department for any questions or quoting.
